Aspera INSURANCE SERVICES

ENERGY PROPERTY

Aspera delivers specialized property and equipment protection for small to midsize operators and contractors across a wide range of energy-specific sectors.

Energy Property coverage is written as standalone primary insurance and can be complemented with additional Energy products like Control of Well and Commercial General Liability to create a comprehensive protection strategy.

TARGET CLASSES

- Traditional oil & gas equipment
- Oil & gas production equipment
- Renewable energy property, including solar panels & other hard-to-place classes
- Power generation equipment
- Mining equipment
- Business Personal Property (BPP) for energy companies
- Buildings & property owned or leased by energy companies, including:
  - Warehouses
  - Office spaces
  - Machine shops
  - Storage tanks

POLICY STRUCTURE

- Capacity up to $4M TIV
- Primary coverage for fixed property (ground-up only) & mobile equipment
- Option to include business interruption, BPP, & stock & inventory
- Scheduled, leased & rented, & unscheduled or miscellaneous equipment options
- Additional coverages available, including pollutant cleanup, rental reimbursement, debris removal, newly acquired property, & preservation of property options

Minimum Premium:

- $2,500
- BPP only: $1,000

SUBMISSION REQUIREMENTS

- Signed & dated applications, including Property supplemental application
- Up-to-date equipment schedule
- Property Statement of Value (SOV)
